2. **ENHANCES THE COOPERATIVE EXCHANGE OF INNOVATIVE KNOWLEDGE** with Extra terrestrial Beings and Extraterrestrial UltraHumans for the future, where the role of industry is paramount through speakers, representatives, displays, technology and sponsorship.

3. **FORMULATES** a program to save the earth for future generations.

4. **RECOGNISES** the necessity for global cooperation and awareness to address global problems.

5. **HONOURS** the basic dignity and wholeness of each person.

6. **BRINGS TOGETHER PEOPLE FROM COMMERCE AND INDUSTRY** who are able to deliver presentations which energise an entire global commercial community to develop "new ways", whereby we can reverse the demise of planet Earth.

7. **ADDRESSES** the Global Environment Problem directly and implements solutions and aid strategies in ways which governments cannot.

8. **PRESENTS NEW TECHNOLOGIES** which are environmentally friendly, conserve energy and water and encourage organic and innovatory farming.

INSIGHT

Exopolitics the study of the key individuals, political institutions and processes associated with extraterrestrial and Ultraterrestrial intelligence, interconnecting with the mystical teachings of these ancient star elders and their evolutionary domains.

Galactic diplomacy promotes diplomatic solutions to the challenges that confront humanity in becoming initiated into a galactic society. The challenge is that most of the human population remains unaware of extraterrestrial presence and of secret communications, agreements and interactions between extraterrestrials and select government agencies

CENTRE FOR GALACTIC DIPLOMACY

The Centre for Galactic Diplomacy aims at creating an open and ongoing dialogue in world society on the key issues affecting the future survival of humankind.

The Centre for Galactic Diplomacy bring together all aspects of current world thinking from the scientific to the spiritual to seek solutions to the major problems facing the future of humankind. It seeks for dialogue with the self referential biological core of the dynamic heart of the Galaxy and Cosmos seeing all life as being interconnected and mutually supporting.

It is evident that once planetary civilizations have become more cooperative and have overcome nationalistic agendas by seeking for the equity and the preservation of all Human life through transitional agendas based on Human Rights and Values there is an opening up to an understanding of our place in the Universe and the realisation that we are not alone We are now at Tipping point.

The fate of Humankind as a Species hangs in the balance We are beset with plenty problems of climate change, overpopulation, pollution, inequity, and phase six extinction of planetary diversity.

Humanity's reliance on oil and water is being severely threatened. Violent conflict between Nations exacerbates our precarious position. The Flight and Fight for survival fundamentally exacerbate our predicament of a Species which is out of control and has lost its deep Roots with Mother Earth and our inextricable symbiotic relationship with all of life.

INSIGHT: In the reinterpretation of ancient mystical texts for this current age, they point to an interconnected cosmos filled with higher beings in which their values reflect love, peace and unity. These documents all point to the reappearance of the creative engineers and angelic dimensions in this time. They talk to us as brothers and sisters in the language of the heart in order to alert us to the coming changes and preparation of the creation of the contact culture. The message heralds a unity of science and spirituality that acknowledges our cosmic heritage and birthright of the divine spark that unites all races and life forms, working unselfishly in a higher nature not in violation of our life space but to herald a future of hope in outer and innerspace. The ability to adopt these higher values and how these higher societies are structured needs to filter into our evolutionary domain if we as a human race want to take the next step in cosmic citizenship.
